

# Vaughn Peterson

---

## Profile

I am an enthusiastic freelancer looking to take the next step in my career. I am hard working, organised, self-motivated and conscientious. I am also very passionate about learning, so I am always upskilling on what I already know, as well as adding new skills to my repertoire. I find it very easy to pick up and learn new software quickly, and work well in a team environment as well as autonomously.

My dream is to work in a creative industry helping to bring ideas to life through problem solving and imaginative design.
